Do not use your lifejacket and return it to the store .

As part of our quality and safety procedures, the Tribord teams have identified a potential risk on the harness.

In very rare cases, there is a risk that **the harness may fail if you fall overboard. This defect does not affect the buoyancy of the product, but it may mean that you are no longer attached** to your boat, making it unsafe to use.

We pay close attention to the quality of the safety products we design for our users and we do not want to take any risks and have therefore decided to recall this product.

We invite you to return your product for a refund to the store of your choice.
